1. Competition Overview and Task

Please describe your competition's motivation, focus, intended impact, and format. In particular, we'd like to hear about:

- the motivation and scientific question behind the competition;
- the proposed machine learning task or tasks and the data to be used;
- the relevance, originality, and expected impact for the SaTML community; and
- any expected positive societal impact, particularly for disadvantaged or underserved communities.

2. Evaluation Protocol

We'd like to understand how participants' entries will be evaluated. Please include:

- how competition entries will be evaluated and ranked;
- why the proposed task, data, and evaluation criteria are feasible and scientifically sound; and
- the main competition rules needed to support a clear and fair evaluation.

We understand that plans may still be evolving at proposal time. Please feel free to indicate which elements are tentative or not yet finalized.

3. Organization and Logistics

We'd like to understand how you plan to run the competition. Please include:

- a tentative schedule that gives participants enough time to contribute high-quality entries and completes the competition no later than **Mar 31, 2027**;
- the proposed competition platform, or the main platform requirements if one has not yet been selected;
- plans for attracting participants, including groups under-represented at SaTML.

Competition organizers will be expected to present and discuss the competition results at SaTML 2027.

4. Organizing Committee

We'd like to get to know the organizing team. For each organizer, please include:

- name, affiliation, and role in the competition;
- a short biography highlighting relevant expertise; and
- previous experience organizing competitions, conferences, workshops, or related community activities, if any.
